2 SILVERWOOD MEWS WINCHESTER, SO22 6FA

A striking example of contemporary architecture, this beautifully presented detached family home combines bold design with outstanding energy efficiency, achieving an impressive EPC Rating while offering almost 2,000 sq ft of versatile accommodation, four double bedrooms and excellent parking.

The distinctive façade immediately sets the tone, while inside the accommodation is flooded with natural light and finished in a clean, contemporary style. The welcoming entrance hall provides access to the principal reception rooms, cloakroom and integral garage, with attractive Luvanto flooring flowing throughout much of the ground floor.

One of the home's standout qualities is its outstanding energy performance. With an EPC Rating A and the benefit of solar panels, the property offers significantly lower running costs alongside the environmental benefits increasingly sought by today's buyers, all without compromising on style or comfort.

The kitchen/dining room has been designed as the social heart of the home. Contemporary cabinetry is complemented by marble worktops and a range of integrated appliances including twin ovens, hob, extractor and dishwasher. A substantial central island provides both additional preparation space and an informal gathering point, subtly defining the kitchen from the dining area without compromising the room's wonderfully open feel.

From the hallway, an internal door leads directly into the integral garage, an increasingly valuable feature. In addition to secure parking, it provides extensive storage, fitted cabinetry, a sink unit and plumbing for both a washing machine and tumble dryer, creating an excellent utility space without sacrificing living accommodation.

The spacious sitting room is centred around a wood-burning stove, creating a warm focal point, while glazed doors open into the Garden room, providing an additional reception space that can be enjoyed throughout the year.

Added shortly after construction and carefully designed to complement the original architecture, the garden room feels fully integrated into the home. Underfloor heating beneath the tiled floor ensures year-round comfort, while wide glazed doors open directly onto the rear terrace, creating an effortless connection between the house and garden.

The principal bedroom enjoys a pleasant outlook over the front of the property and offers generous proportions, complemented by a superb walk-in dressing room with bespoke storage and a beautifully refitted en-suite shower room. Finished to a particularly high standard, the en-suite features underfloor heating, illuminated cabinetry, sensor lighting and a large walk-in shower.

The guest bedroom is another excellent double room overlooking the rear garden and benefits from fitted wardrobes together with its own en-suite shower room, making it ideal for guests, older children or multi-generational living. Bedrooms Three and Four are equally impressive, both being genuine double bedrooms rather than the smaller fourth bedrooms so often found in modern homes and both enjoy views over the rear garden.

Completing the first floor is the stylish family bathroom (*pictured alongside Bed2 ensuite*), fitted with a contemporary suite including bath, oversized wash basin and quality sanitaryware.
